

OSSD/IGM

2019 WASHINGTON, DC

The role of sex steroids in metabolic health and disease

Adipose tissue distribution and risk for associated metabolic diseases like coronary atherosclerosis, stroke, and type 2 diabetes differs by sex and throughout the life span. This symposium focuses on the effects of sex steroids, age, and the interaction of these on metabolic health and disease in men and women.

Second Joint OSSD/IGM Meeting
Washington, DC, USA
May 5 – 8, 2019
